MEMORANDUM FOR: Acting Deputy Director (Support)

SUBJECT: CIA Legislative Proposals, 85th Congress

1. I have reviewed this paper and find that those points of interest to the Comptroller, the Office of Personnel and the Office of Logistics are being given a priority consideration by those offices. SSA(Comp), SSA(Pers) and SSA(Log) have reviewed this matter with their appropriate offices and find that we need add nothing specifically to those particular fields of consideration.

2. I find that a few elements of our legislative proposals are not listed in Mr. Paul's paragraph 3 which are of concern and should be included. It is my understanding that these subjects will be touched upon by the appropriate support offices but I wish to bring them to your attention so that they will not be overlooked.

a. Travel expenses including transportation of household effects and automobile; storage of effects.

b. Transporting dependents to and from United States to obtain secondary and college education.

c. Home leave travel; accumulation of "home leave."

d. Travel from actual residence in foreign countries to places of employment and return to actual residence upon separation from the Agency.

e. Charging travel and transportation expenses in total to the fiscal year in which travel begins.

f. Provide first aid stations, physicians and nurses at overseas stations as necessary, and additional medical benefits similar to those recently passed for the Foreign Service and included in our last year's legislative submission.

3. I would also strongly recommend that the retirement provision which was widely discussed, considered and on the verge of submission last year be completed as a proposal and submitted on this about-to-be-proposed legislation.
